- Bengali

PROFILE

Detail-oriented and passionate Computer Science and Engineering (CSE) student seeking a Web Developer Internship. Highly skilled in building responsive, user-centric web applications using modern frontend technologies like React, JavaScript, Tailwind CSS, and Bootstrap. Proven track record of developing functional UI components, custom landing pages, and interactive web features. Eager to contribute technical skills to a dynamic development team while accelerating professional growth.

KEY WEB DEVELOPMENT PROJECTS

Coffello – Premium Coffee Landing Page

- Technologies Used: HTML5, Tailwind CSS
- Key Contributions:

Designed and engineered a fully responsive, modern landing page for a boutique coffee brand.

Evenza – Event Management Platform

Developed a dynamic, component-based event management web application utilizing React for optimal state management and reusable UI elements.

Tourys – Tour Group Management Landing Page

Designed and engineered a high-converting, single-page landing page optimized for tour group organization and management booking. Leveraged Vanilla CSS utility classes to build structured layouts, intuitive navigation grids, and custom visual elements.
